UM SPRING ENROLLMENT
UP 12 FROM A YEAR AGO

dwyer/jg
5/1/79
state

MISSOULA--

The number of students enrolled spring quarter at the University of Montana is 7,656 up 12 from the number this time a year ago, when the head count was 7,644.

Registrar Phil Bain said the figures at the end of the third week of classes show 182 more women than were enrolled spring quarter 1978, 59 more part-time students, and 69 more graduate students.

The full-time equivalent (FTE) enrollment is about one per cent below that of a year ago. The minor drop in FTE combined with a slight increase in head count suggests a fair degree of stability in UM enrollments, Bain said. He explained that the FTE enrollment is computed by dividing all graduate credits by 12 and all undergraduate credits by 15, which are considered normal course loads for graduate and undergraduate students, respectively.
